POLYSAFE™

Quality Policy Statement

Polysafe Level Crossing Systems Ltd are fully committed to Quality Assurance in all aspects of design, manufacture, quality control, storage and despatch of the product covered by the Quality Management System as described within this manual. Polysafe Level Crossing Systems Ltd's objective is the maintenance of appropriate standards of fitness for use, performance, safety, reliability and whenever possible, to improve these standards in line with client's expectations.

As Managing Director, I accept full responsibility for the quality policy and the regular reviewing of company quality achievements, continual improvement, and the strategic direction with the management representative, to whom I have delegated the operation of the quality management system.

The quality system is in accordance with the requirements of BS EN ISO 9001:2015 but Polysafe Level Crossing Systems Ltd will review it periodically for continued suitability. In addition, Polysafe Level Crossing Systems Ltd set and review quality objectives.

Polysafe Level Crossing Systems Ltd requires that the quality management system be understood and practised by all employees in the everyday performance of their duties.

It is management's responsibility to ensure that all employees are provided with equipment and facilities as well as documented procedures to enable them to perform their duties in a reliable and effective manner.

Top Management are responsible for the operation and co-ordination of the quality management system.
